Intern Position Description

Wildlife Refuge Management Assistant, Web 2.0 Ranger,

GS-02, 03, 04, 05

Position Title

GS or WG and what level?

Biological Science Technician

GS-05

DUTIES

Please note the duties the intern will be performing

- Collect biological samples from free-ranging wild mountain goats on Kodiak Island.
- Tent camp for extended periods in extreme and remote situations, in bear country, and under severe inclement weather.
- Hike long distances daily over steep and unstable terrain, in bear country, and under inclement weather.
- Use a handheld Trimble GPS unit to record locations in the field.
- Enter data into a computer database and conduct basic summary statistics.
- Write a final report of field activities.

EDUCATION LEVEL, SKILL, INTERESTS

Please note specific skills, competencies, interests, classes selected, or other qualifications that would be useful for an intern to have in order to make a significant contribution on this project.

This position requires greater maturity and emotional resources than positions that are solely office based. Field work is difficult with biting bugs and strenuous working conditions in remote environments with two other people. It is essential that the intern be enthusiastic and willing to learn new skills both scientific and outdoor oriented. The intern should also have exacting attention to detail for required data collection and

management. The intern will ideally have previous experience on research projects involving large mammals in remote situations. The intern will ideally have GPS and GIS experience.

WORK CONDITIONS, CLOTHING GEAR

Describe the work conditions (hours, dress code, environment/setting) and appropriate clothing/gear that the prospective intern should be aware of

The intern will be spending 20% time in the office and 80% in the field. In the office, the intern is expected to dress appropriate to a casual office environment. Hours in the office will generally be limited to 8 hours per day. In the field, the intern will dress appropriate to field conditions, which generally includes wearing synthetic (not cotton) clothing that is either quick drying or waterproof. Hiking boots with ample ankle support are necessary. The intern will carry a backpack with food and research equipment and might carry a shotgun for bear-defense. When moving between camps, the intern will also carry camping equipment (food, tent, sleeping bag, stove, etc.). Work days in the field could regularly exceed 8 hours.

FWS will provide field equipment such as backpacks, sleeping bags, cook stoves, and binoculars.
